Rishikesh, Dehradun Uttarakhand, India | +91 8755553908 | keshavsays08@gmail.com | [LinkedIn](#) | [Portfolio Site](#)

EDUCATION

B.Tech in Electrical Engineering

G. B. Pant University Of Agriculture & Technology, Pantnagar 6.860 CGPA 2022-2026

Grade XII, CBSE

Nirmal Ashram Deepmala Public School, Rishikesh 86.4% 2021

Grade X, CBSE

Nirmal Ashram Deepmala Public School, Rishikesh 88.8% 2019

EXPERIENCE

1. Interviewkit.ai

Apr 2026 – Jun 2026

Product Analyst Intern

- **Product Development & Strategy:** Collaborated directly with the founder on **Product Development, Sales Operations, and Strategy**; took end-to-end ownership of key product features from ideation to deployment.
- **Built REST API Editor & Job Suggestion Module:** Designed and implemented a **REST API-based editor** and built a **job description suggestion module** leveraging keyword extraction to match user profiles with relevant roles.
- **Developed Resume-Based Q&A System:** Built a system producing **personalized interview questions and model answers**, directly strengthening the platform's core value proposition; also built **data visualization dashboards** using Excel.

2. Sapienplus AI Research and Analytics LLP

Jun 2024 – Aug 2024

ML Analytics Intern

- **Built ETL Data Pipeline:** Designed and implemented a Python-based ETL pipeline for time-series data, enabling efficient extraction, transformation, and structured storage of financial datasets.
- **Developed Educational Notebooks:** Created comprehensive Jupyter notebooks covering Python fundamentals and statistics, with progressive complexity tailored to practical data science workflows.
- **Authored Python Library Resources:** Built self-contained learning modules for NumPy, SciPy, Pandas, Matplotlib, Seaborn, Statsmodels, and Scikit-learn, with a focus on financial time-series applications.

PROJECTS

1. Automated Insect Detection & Counting System ([Github Link](#))

Mar 2026 – Jun 2026

- Developed an end-to-end computer vision pipeline using **YOLOv8** trained on 520 annotated images, achieving **93% mAP@50** for real-time fruit fly detection with automated CSV logging and timestamp tracking.
- Deployed optimized model on **Raspberry Pi 4** with HQ Camera, implementing live detection at 5-10 FPS using PyTorch CPU inference, Picamera2 integration, and custom data augmentation techniques.
- Designed and ideated complete 3D-printed enclosure system for mounting camera, electronics, and pheromone trap, integrating automated counting logic for agricultural monitoring applications.

2. Real Estate Analytics ([Github Link](#))

Dec 2025 – Jan 2026

- Developed an end-to-end ML pipeline, benchmarking 10+ algorithms to select a **Random Forest** model achieving a **0.91 R^2 score** via K-Fold Cross-Validation.
- Built a multi-page **Streamlit** dashboard featuring dedicated for **Price Prediction, Analytics Module, Insights Module**, and also added **Recommender System** for similar apartment discovery.
- Deployed the scalable application using **AWS EC2 and S3**, implementing advanced data cleaning and outlier treatment for high-dimensional real estate datasets.

3. Financial Transaction Analytics ([Github Link](#))

Jan 2026 – Feb 2026

- Architected a **Star Schema** data model consisting of a central Transaction fact table and 7 dimension tables (Customers, Banks, Locations) to streamline financial reporting.
- Developed an end-to-end analytics workflow using **SQL/Snowflake** for data warehousing and **Power BI** for visualizing KPI trends, profit/loss analysis, and regional activity.
- Implemented interactive dashboards featuring **dynamic parameters** and slicers, enabling stakeholders to perform granular cross-filtering by investment type and customer demographics.

SKILLS

• JAVA • Python • SQL • Microsoft Excel • Power BI • Machine Learning • SAS

POSITIONS OF RESPONSIBILITY

The Robotics Club, Pantnagar

Oct 2023 – Jun 2026

Vice Chairperson (Final Year); Executive Member (3rd Year)

- **Operational Leadership:** Directed club operations across cross-functional teams, driving on-time event delivery and resolving bottlenecks to **maintain execution quality** across all initiatives.
- **Technical Mentorship (Inbotics 2025):** Designed and delivered a technical workshop on "**AI in Robotics**" to 100+ sophomore students, covering core AI algorithms (BFS, DFS, Minimax etc.) and modern robotics techniques and applications.
- **Strategic Coordination:** Led design reviews and material selection for **club projects**, cutting manufacturing inefficiencies and strengthening collaboration between technical departments.

ACHIEVEMENTS

1. **Runner-up (2nd Place):** Secured 2nd position in *Ranbhoomi*, a national-level robotics competition held during *Colosseum* at College of Technology, Pantnagar **2024**
2. **Third Place:** Ranked 3rd in *Inbotics*, an autonomous robotics competition and workshop. **2022**
3. **City Rank 5th:** Achieved 5th City Rank in the SOF International English Olympiad (IEO) in class 11th. **2020**
